EXPERIENCE

IT Project Developer

PT Central Mega Kencana

🗓 12/2023 - 03/2025   📍 Jakarta, Indonesia

- Enhance procurement application for connecting to sap and manufacturer
- Create SPK Urgent service for requesting merchandiser to manufacture
- Enhance manufacture application
- Create Mondial application for Mondial exhibition
- Create a landing page campaign for The Palace to enable digital marketing teams to create their own campaigns without relying on vendor-built apps.
- Create frank and co application for engrave booth

Web Developer Intern

PT Presisi Utama Mandiri

🗓 02/2022 - 02/2023   📍 Cikarang,Indonesia

- Create a company website that supports transactions and includes an admin panel, allowing for editing of company content. Customers should also be able to contact the admin through an API that connects to WhatsApp or by sending an email. This will help students gain a deeper understanding of the system.
